ENGINEERING AND CONSTRUCTION BULLETIN

No. 2002-21 Issuing Office: CECW-ET Issued: 15 July 2002 Expires: 15 July 2004

Subject: Unified Facilities Guide Specifications (UFGS) for Design-Build Contracts

Applicability: Information

1. Design-Build contracts involve fundamentally different roles and responsibilities and include design requirements for the contractor that must be addressed. Heretofore, the guide specifications for project schedule, submittal requirements and contractor quality control only pertained to the construction phase of a contract.

2. This bulletin is to advise that three revised guide specifications are now available with tailoring options for use on either traditional construction or design-build contracts as follows:

UFGS-01320A, PROJECT SCHEDULE
UFGS-01330, SUBMITTAL REQUIREMENTS
UFGS-01451A, CONTRACTOR QUALITY CONTROL

3. These guide specifications are accessible on the National Institute of Building Sciences (NIBS) server at URL:

<http://www.hnd.usace.army.mil/techinfo/gspec.htm>

4. Point of contact for this bulletin is Mark Grammer, CECW-ETC, 202-761-4127.
